

## BEHAVIORAL HEALTH AA, STATEWIDE PROGRAM: 616

Total Credits: 60

Catalog Edition: 2021-2022

### Program Description

According to the Agency for Healthcare Research and Quality, behavioral health is the study of "mental health and substance abuse, life stressors and crises, stress related physical symptoms, and health behaviors". It is a dynamic and growing field that focuses on promoting positive health behaviors while reducing or eliminating health risk behaviors. The goal of this program is to foster resilience in an environment that supports students from diverse backgrounds and life experience. The program is designed to transfer to UMBC's baccalaureate social work program at the Universities at Shady Grove campus. The program also serves to train students for entry-level positions as aides or technicians in various mental health disciplines.

### Program Outcomes

Upon completion of this program, a student will be able to:

- Demonstrate an understanding of key concepts in behavioral health promotion including: the determinants of mental health; stress; coping; anxiety, mood and personality disorders; substance abuse; and treatment.
- Identify and model examples of ethical and professional behavior.
- Demonstrate an understanding of group processes and behaviors including: identity, formation, structure, power, influence, leadership, and performance.
- Demonstrate effective verbal and written communication skills.
- Use critical thinking skills to solve problems relevant to the practice of behavioral health.
