

ELECTRONIC PHOTOGRAPHY CERTIFICATE: 193

Total Credits: 15

Catalog Edition: 2022-2023

Program Description

(R): 193

This certificate curriculum is intended to upgrade skills for currently employed individuals or to provide new skills for a change in job specialization. It provides basic black-and-white and color photography skills and techniques in electronic photography and digital imaging as they apply to the modern business of professional photography.

Program Outcomes

Upon completion of this program a student will be able to:

- Capture, edit, and output photographs for both print and web applications technology for use in commercial or fine art environments.
- Operate a wide variety of photographic lighting equipment for use in studio, architectural, and varied commercial environments.
- Consciously employ complex aesthetic strategies as they apply to visual problem-solving methods.
