PROGRAM ELECTIVE ‡		3	

* ENGL 101 if needed for ENGL102/103 or elective.

Overall GPA of 2.0 is required to graduate

‡ Choose two courses from the following **Program electives: ACCT 221, ARCH 101, ARCH 103, ARCH 183, ARCH 202, ARCH 203, ARCH 204, any BLDG course, CMGT 274, CMGT 290, MATH 165.**

Total Credits:

[Management of Construction Technologies Website](#)

This AAS track is designed to prepare graduates to organize, operate, manage, and control the unique and demanding systems, procedures, and services in the construction industry, both on the job site and in the contractor's office. Areas of study include cost control, planning, scheduling, controlling and expediting construction, contract bidding and estimating, personnel management, and the overall management of construction operations. This curriculum prepares students for construction management careers in any type or size of construction firm.

Last Modified: July 2021

The curriculum is not designed as a transfer program except to institutions having a construction curriculum. A student seeking a four-year bachelor's degree must meet with the program coordinator in the management of construction program or the applied technologies department chair to work out a suitable program of study.

Advising Worksheet
